PROJECTS

- [Portfolio](#)
- [commerce](#)
- [MegaOne](#)
- [Jumys Ice Cream](#)

- **PORTFOLIO (HTML,CSS,JAVASCRIPT)**

- Developed a responsive and interactive personal portfolio website using HTML,Tailwind,CSS, and JavaScript. The website showcases my projects, skills, and contact information, offering a user-friendly interface with smooth navigation. Integrated custom animations and modern design elements to enhance the user experience. Deployed the project on Netlify for seamless hosting and accessibility.

- **ECOMMERCE (HTML,CSS)**

- **Description :** The ecommerce website is a responsive e-commerce platform built with React.js for the frontend and Node.js for the backend. It offers an intuitive user experience, allowing seamless navigation and interaction across various pages tailored for online shopping
- **KEYFEATURES:** Product Management ,User,Order,Wishlist,Review,Additional Information

- **FURNITURE_APP (NODEJS,EXPRESSJS,TYPSCRIPT,MONGODB)**

- **Description :** Our furniture backend web system streamlines online operations, efficiently managing product listings, orders, and customer data. With real-time inventory updates and insightful analytics, it's the foundation of a seamless shopping experience..
- **KEYFEATURES:** Product Management ,User,Order,Wishlist,Review,Additional Information

- **JUMYS-ICECREAM (REACTJS,TALWINDCSS,NODEJS,TYPSCRIPT,MONGODB)**

- **Description :-** The Jumys website is a responsive e-commerce platform built with React.js for the frontend and Node.js for the backend. It offers an intuitive user experience, allowing seamless navigation and interaction across various pages tailored for online shopping
- **KEYFEATURES:** Product Management ,User,Order,Wishlist,Review,Additional Information

- **CRUD APP (REACTJS,MONGODB)**

- **Description :** A CRUD app is an application that performs the basic operations of Create, Read, Update, and Delete on data. That's why it's abbreviated into CRUD. The four operations represent the fundamental actions that can be performed on most database management systems and are essential for managing data within an application.
- **KEYFEATURES:** Product Management ,User,Order,Wishlist,Review,Additional Information
